

PLANOCOLOR KURASANI ADDITIVE

Natural granite granulates

- ▷ **Stable granulometric gradation**
- ▷ **Polygonal geometry**
- ▷ **In shades of Grey & Red**

Description

The PLANOCOLOR KURASANI ADDITIVE is extracted as a mineral raw material from selected granites of special quality. They are polygonal, pure, free from impurities, and have a consistent, graded particle size distribution. These additives are suitable for creating high aesthetic traditional-style coatings in combination with PLANOCOLOR ANTICO.

Technical Data

Product Identity

Chemical composition	Granite
Color	Grey, Red
Granulometry	0.2 – 0.6 mm
Specific gravity	$2.65 \pm 0.5 \text{ g/cm}^3$
Hardness (Mohs)	6 - 7

Application Procedure

Application

For more information, please refer to the Product Data Sheet of PLANOCOLOR ANTICO.

Recommendation

The product is derived from natural raw materials, and therefore, a natural color variation is expected. Due to the significant variety in the mineral raw materials, it is recommended to blend different batches to minimize color differences during uniform application.

Packaging

Plastic bags of 25kg.

Safety Instructions

For information and instructions regarding disposal and safe handling, users should refer to the latest Safety Data Sheet of the product containing ecological, toxicological and other safety related data.

Legal Notes

The technical data and recommendations contained or listed in this leaflet are the result of laboratory measurements, of our current knowledge and experience. All the above-mentioned information and specifications should in any case be considered as indicative, as they may differ from each other. The Company makes every effort to ensure the accuracy of the information provided herein. Product specifications, prices and availability are subject to change without notice and may differ from those shown.

In practice, variations in materials, substrates and on-site implementation conditions are such that no warranty can be given or implied, as to the merchantability or suitability of the materials for a particular purpose and for the exact conditions of each project. Anyone interested of using the product must be sure beforehand that the product is suitable for the intended use and in any case, the user is solely responsible for any consequences due to the use of the product. Among other things, the Company is not responsible for any normal wear or tear from environmental or other inappropriate conditions. We reserve the right to revise or change the data herein without prior notice.

Restrictions and disclaimers apply to the extent permitted by applicable law. The Company has a Technical Support Department, which is the only one responsible for providing technical advice and solutions to deal with problems. Requests to the Technical Support Department are addressed and answered, only in writing.

For the latest and a valid version of the Technical Data Sheet, the user of the material must refer to our website www.novamix.gr or directly to the QR Code of the product.
