ADVANCED BUILDING MATERIALS

# SC ELASTIC

One component, flexible waterproofing mortar for balconies, terraces, swimming pools

Waterproofing protection for almost any type of surface

Excellent workability and flexibility

High resistance to UV radiation

Protects concrete from carbonization

Ideal for internal and external wet areas such as: built in basins, terraces, balconies, swimming pools, water tanks

Ideal for substrate waterproofing prior to the application of decorative coatings such as PLANOCOLOR microcement or micro pebble toppings

Easy application by means of brush, roller or trowel  
Suitable for rooftops

Pot life:

45 - 60 min/20°C

Colour: White

Consumption: 1,2 kg/m<sup>2</sup>/mm of thickness

Packaging: Plastic buckets of 5 kg and 20 kg multi-layer paper bags

Certified as cement based concrete surface protection coating against humidity, with increased durability according to EN 1504-2 and EN 13295

# NOVAROOF AC FIBER

Highly flexible, fiber reinforced  
waterproof membrane  
in liquid form

Easy and powerful solution for both professional  
and non-professional applicators

Creates a powerful elastic and waterproof  
membrane on new and existing constructions

**Suitable for:** terraces, rooftops, galvanized steel,  
roof tiles, gutters, gypsum boards

**One component ready to use**

**High resistance to UV radiation**

**Easy application by means of brush or roller**

**Excellent resistance to weather conditions**

**Fiber reinforced**

**Excellent adhesion to almost any type of common  
stable substrate**

**Colour:** White

**Consumption :** 2,0 - 3,0 kg/m<sup>2</sup> applied in 2 layers

**Packaging:** Plastic buckets of 5 kg and 20 kg

**Certified as surface protective coating** against  
humidity for concrete according to **EN 1504-2**

# SC 200 PENETRATE

Two component waterproofing  
protection for concrete and  
cement based mortars

**Penetrates and seals internal capillaries in concrete**

**Ideal for internal and external wet areas such as:**  
terraces, balconies, water tanks and swimming pools

**Protects concrete from carbonization**

**Easy application by means of brush or trowel**

**Ideal for substrate waterproofing prior to the  
application of decorative coatings such as  
PLANOCOLOR microcement or micro pebble toppings**

**Pot life:**

60 - 90 min/20°C

**Colour:** White and grey

**Consumption:** 1,6 kg/m<sup>2</sup>/mm of thickness

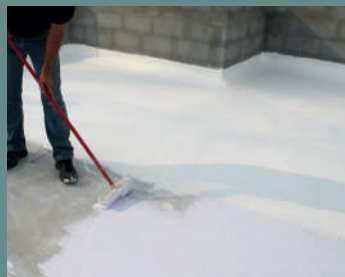

**Packaging:** Units of 32 kg  
(Part A': 25 kg powder,  
Part B': 7 kg liquid)

**Certified as cement based concrete** surface protection  
coating against humidity, with increased durability  
according to **EN 1504-2** and **EN 13295**

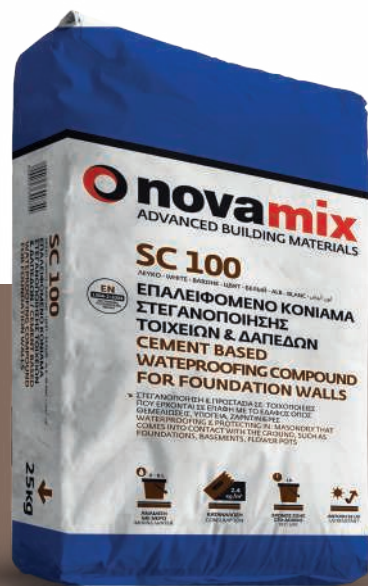

# SC 200 EASY FLEX

Highly flexible, two component  
waterproofing mortar

Provides easy application and high flexibility  
Combines the flexibility of elastomeric membranes with the long lasting durability of cement based compounds  
'Crack bridging' up to 2,5 mm  
High resistance to UV radiation  
Easy application by means of brush, roller or trowel  
Ideal for internal and external wet areas such as:  
built in basins, terraces, balconies, swimming pools, water tanks, foundations, flower pots

Suitable to be left exposed on free of traffic rooftops  
**Pot life:**  
60 - 90 min/20°C  
**Colour:** White and grey  
**Consumption:** 1,7 kg/m<sup>2</sup>/mm of thickness  
**Packaging:** Units of 30 kg (Part A': 20 kg powder, Part B': 10 kg liquid)  
**Certified as cement based concrete** surface protection coating against humidity, with increased durability according to **EN 1504-2**

# SC 100

Osmotic cementitious mortar suitable for waterproofing concrete structures

Penetrates and seals internal capillaries in concrete  
Suitable for foundations, basements, flower pots, balconies, bathrooms

Ideal prior to the application of thermal insulation panels

Easy application by means of brush, roller or trowel

Excellent adhesion on concrete, bricks and cement based masonry

**Pot life:**

45 - 60 min/20°C

**Colour:** White and grey

**Consumption:** 1,6 kg/m<sup>2</sup>/mm of thickness

**Packaging:** Plastic mini bags of 5 kg (SC 100 WHITE) and 25 kg multi-layer paper bags

**Certified as cement based surface** protective coating against humidity for concrete according to **EN 1504-2**

# NOVACOL FLOWSET

Tile adhesive and waterproofing mortar, suitable for large size floor tiles

**Waterproofing and tile adhesive in one product**

**Fast curing and extended open time**

**Ideal for internal and external areas:** built in basins, terraces, balconies, swimming pools, foundations and wet areas

**Suitable for placing large size floor tiles:** in heavy traffic areas, over under floor heating systems, **on almost any type of substrate**

**Pot life:**

45 - 60 min/20°C

**Light floor traffic:** after 3 hours

**Tile grouting:** after 6 hours

**Colour:** Grey

**Consumption:** 1,3 kg/m<sup>2</sup>/mm of thickness

**Packaging:** 25 kg multi-layer paper bags

**Certified as an improved characteristics cement tile adhesive according to EN 12004** and as cement based surface protective coating for concrete against humidity, according to **EN 1504-2** principal 2 (MC) and Principal 8 (IR) durability enhancement
